

CULTIVATION

BuildMySOP.com is your business' one-stop-shop for Standard Operating Procedures. With customizable templates, created specifically for cultivation facilities, BuildMySOP gives you the jumping-off point you need to introduce, train, and grow your employees in their job.

Our SOPs are broken into four categories depending on your type of facility

CULTIVATION

MANUFACTURING

RETAIL

TRANSFER/DELIVERY

In addition to being legally required in nearly every jurisdiction, standardized procedures improve any cultivation business. Routine and efficient procedures help generate reliable crop yields, which increases your bottom line. Explicit instructions help to keep employees safe while giving advanced tools to grapple with risk management as they move about the facility, use equipment, and mix chemicals. Safe, healthy employees make for a more cohesive and more productive workforce.

THE STANDARD OPERATING PROCEDURE SOLUTION YOUR BUSINESS CAN AFFORD AND CAN'T AFFORD NOT TO HAVE.

BuildMySOP.com offers subscription choices to fit your company's needs and budget. Subscriptions give you continuous access to edit templates and tracking tools that will allow you to update SOPs as your industry, rules and regulations or job descriptions change.

With access to features like tracking revisions, training completion sign-offs, and disciplinary write-ups, you're also investing in employee training and management that will save your business time and money in the long-run.
